

MAKING IT YOURS

Do you prefer red brick shades, or browns? Are you a fan of modern styles or traditional designs? Do you like warm, bright, and casual colors or cool and elegant combinations? Now it's your turn to choose.

Many people find the selections process to be one of the most fun and relaxing parts of the homebuying experience. It is certainly the time when the home starts to come together in a tangible way and when you get to put your personal stamp on the specifications.

Making selections is the next step after contract acceptance and loan application. All these selections come together to help you define your dream home according to your own tastes, preferences, and needs. This brochure has helpful tips on how to make the most of the experience. For a more detailed explanation of the processes, please refer to the *Homebuyer's Guide to the Ball Homes Purchasing, Building and Warranty Process*.

THANK YOU

Thank you for considering Ball Homes as your homebuilder. If you have already decided to purchase a Ball home, we appreciate your confidence. We have more than forty-five years of experience at making dreams come true.

Our goal during the construction process is to provide a high quality home, a stress-free building process, and a smooth transition during your move-in.

After closing, our goal is to provide convenient, timely, and efficient warranty service to help you enjoy your new home and protect your investment.

At all times, our greatest goal is to provide the best possible customer service.
